

## An excerpt of our portfolio with established and new products

**Liquid Handling: HTS, Chemistry, Protein Crystallography, Screen Builder, Combinatorial Assays and Drug Research**

**CrysCam UV: For Protein Crystallography a Digital Microscope with optional Plate Hotel**

**Cellular Biomechanical Systems: Tension/Compression, 3D Culture, Shear Stress, Tissue Engineering**

**Roller Apparatus and suitable Roll-In CO<sub>2</sub> Incubators**

**Anaerobic and Hypoxic Chambers and associated products**

**Bioreactors and Fermenters**

**Evaporators: Dry samples in microplates or HPLC vials**

**Assay plates (solid, clear, glass or filter bottom); Plate Sealing Foils, Seals, Mats**

**Microbiological Safety Cabinets (all Classes) and Filter Cabinets**

**FASTER**

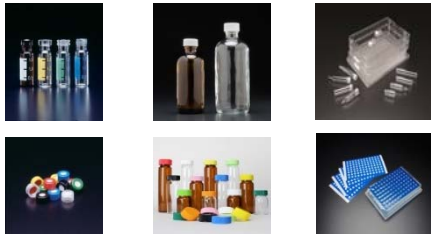

**GlucCell: Glucose monitoring kit with test strips for cell culture media**

**CESCO BIOENGINEERING**

**Products for Biotechnology, Chromatography and Analysis**

**J.G. Inneran**

**Single and Multichannel Pipettes, manual and electronic**

**CAPP DENMARK**

**Glass and single use disposables**

**Cell culture Requirements**

**General Purpose**

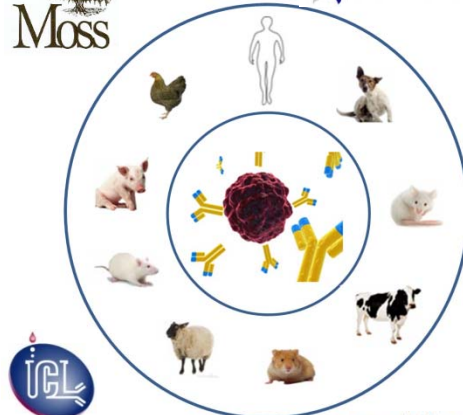

**Chemistry Glassware**

**Immunoreagents: Plasma, Sera, Whole Blood, Antibodies, Substrates and Recombinant Proteins**

**Moss**

**Innovative RESEARCH**

**IGL**

**Thermo SCIENTIFIC**

**meridian BIOSCIENCE**

**LAB VISION CORPORATION**

**NEOMARKERS**
